REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record (considered as a whole) neither anticipates nor renders obvious the vacuum suction tube claimed by the applicant having an outer pipe, an inner pipe with a plurality of detent holes and a separate inner liner layer in the form of a liner tube that is secured at a fixed position to the inner surface of the inner pipe wherein the inner liner layer has a groove extending axially along the inner liner tube facing the detent holes to isolate vacuum of the inner pipe from the detent holes in combination with the rest of the claimed limitations set forth in the independent claim 6. In reference to the previously cited prior art, there is no motivation found in the prior art to provide the inner liner layer in the form of a tube or to provide an inner liner tube with a groove extending along the tube and facing the detent holes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
